

## Welding school Albeda Colleg - RDM Campus Rotterdam

### Mission

Delivery and mounting of welding- and grindingbooths for the new welding school of the Albeda Colleg on the RDM Campus in Rotterdam.

### Specifications

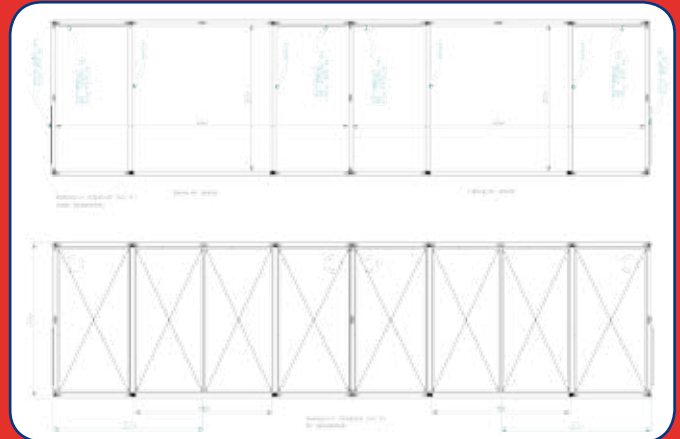

50 welding booths, 200 x 200 cm, height 220 cm.  
Built from Cepro Sonic sound absorbing elements.

The front of the booths were fitted with Cepro Bronze-CE welding strip sets, which were slideable in a single rail system.

All booths were fitted with mounting plates for fixing gas, oxygen and electricity.

8 grinding booths, 400 x 200 cm, height 250 cm.  
Built from Cepro Sonic sound absorbing elements, with perforation on 1 side only.

The soundabsorbing entrance doors as well as 1 side panel are fitted with a Cepro Impact protection plate window.
